

## **Summer internship program Austin, TX**

BackOffice Associates, LLC is a fast-growing provider of consulting services and software to global corporations. We perform business critical services associated with corporate ERP systems. We have developed a proven product-line, process and reputation for uncompromising success. We are looking for an energetic, self-directed, committed and goal-oriented individual with the desire to join a world-class organization.

### **Net Developer INTERN**

Become a contributing member of our development organization. Work with the platform team to build an automated testing suite. This suite will allow for dynamic execution of CranSoft application pages on a schedule without human intervention. This will be an exciting project for a programmer of any level.

Work with platform team to get specs, write up the plans, and implement the project. The intern will also document the project along the line.

The CranSoft™ framework is a web development platform for building applications for data migration, master data management, as well as tactical business applications.

#### **Qualifications:**

- Experience using Microsoft SQL Server
- Experience developing in C#
- Excellent written and verbal communication skills
- Excellent problem solving, analytical and research skills

**Please submit your resume and cover letter to: [careers@boaweb.com](mailto:careers@boaweb.com)**
